

7th Grade Math Sequence

MAY 2024

Our highly effective Math Sequence is expertly crafted to significantly enhance the skills needed for excelling in high school entrance exams. Our team of experienced tutors has designed this sequence, specifically tailored for 7th graders, to provide targeted small-group instruction on key math concepts and strategies. The sequence features a comprehensive common core-aligned approach, coupled with focused homework assignments to reinforce learning. Our aim is to instill confidence in our student's academic abilities while sharpening their conceptual foundations for optimal performance on high school entrance exams. This intensive online sequence is comprised of five interactive small-group sessions, ensuring personalized attention and maximum learning outcomes.

Our sequences include homework and online resources. All classes are held online via Zoom. Students are expected to attend all sessions in a sequence.
