

ACT/SAT Core Small Groups

MARCH / APRIL 2024

BEC's Core Small Groups are meticulously crafted to strengthen students' understanding of essential ACT/SAT concepts. Whether unraveling the nuances of undefined linear systems or finding the equation of a circle on a coordinate plane, our concept courses emphasize topic identification to enhance academic proficiency and instill confidence. These Small Groups offer a flexible modular approach or can be taken sequentially, fostering a comprehensive and interconnected review of key concepts.
