

# HSPT Core Small Groups

**NOVEMBER / DECEMBER 2024**

We understand that every major academic test ultimately stems from the same core skills, and we believe that test literacy can track through a student's career, from grade-level assessments to college entrance exams. Geared towards 8th graders taking the HSPT in December of 2024, these small groups are crafted to boost students' confidence in their academic abilities while honing their strategic foundations to maintain their skills. Small groups are limited to 4-8 students.

*Includes curriculum tracking, homework, and online resources. All Small Groups are held online via Zoom. Sessions are modular and students can attend any number of sessions offered.*
